- **EM – Savannah River Site (Significance Category 1).** On February 13, while a Security Police Officer III (SPO III) was cleaning her M-4 rifle in the Weapons Cleaning Room, the weapon accidentally fired. The SPO III inadvertently loaded a round into the chamber when she pulled the charging handle to the rear while the magazine was still attached to the weapon. When she released the charging handle, the rifle fired the round through the cleaning table, through a wall, and into an adjacent room where other SPO III's were cleaning weapons. One SPO III was hit by wall debris which caused some surface scratches to the skin on his leg. He was treated at the SRS site medical facility and released back to work. The SPO III, who caused the accidental discharge, immediately placed the M-4 rifle on the table and ensured the weapon was on safe.
